Final-year Computer Engineering student at UTT, graduating in July 2025, with experience in development and **project management** in **international settings**. Skilled in Python, SQL, VBA, and Java, I'm passionate about **digital transformation**, **process optimization**, and **business intelligence**.

Looking for a VIE in IT from **August/September 2025**, I thrive on automation and efficiency improvements. Adaptable and analytical, I'm eager to support digital adoption, process improvements, and sustainability initiatives in the air freight industry.

Experience

**Christian Dior Couture**

Assistant Project Manager EMEA

Jan 2025 - July 2025

- Design** and **development** of a VBA tool to **automate** file comparison and generate a discrepancy report, thereby **reducing** the volume of support tickets.
- Project management in **collaboration** with teams in Spain as part of a **migration**, ensuring coordination and alignment of technical requirements.
- Monitoring** project runs, ensuring that processes are properly executed and that any incidents are **resolved** to guarantee continuity of operations.

**Emeria Technologies**

Full Stack Engineer

July 2023 - Jan 2024

- Developing **APIs** and **microservices** as part of a team in a **real estate context**, in order to optimise system interoperability and improve the efficiency of business processes.
- Participation in the entire development cycle, from needs **analysis** to **production launch**, ensuring the **quality** and **performance** of the solutions.
- Contributing to the **optimisation** of data flows and the improvement of internal tools to facilitate access to information and decision-making.

**Valeo**

IS Assistant Project Manager

April 2022 - July 2022

- Identifying **business needs** and designing appropriate technical solutions.
- Deployment of solutions in the Google Cloud environment and creation of customised tools with Google **AppSheet** and **Apps Script** to improve operational efficiency.
- Administration** of the Google AppSheet platform and support for Devoteam G Cloud teams for Office solutions.

Education

**Troyes University of Technology**

IT and Information Systems

2022 - 2025  
Engineer Diploma

- As a student in **computer engineering** and **information systems**, I acquired skills in **software engineering**, IT infrastructure, security and web technologies. I also explored business law and knowledge engineering, enriching my technical and strategic vision.
- I did an exchange at the prestigious **National Taiwan University (NTU)**, where I honed my skills in Python, artificial intelligence and networks. I also took Mandarin classes and discovered new academic and cultural perspectives.

**IUT d'Orsay**

Computer Science

2020 - 2022  
Technological diploma

- Solid training in object-oriented programming, databases, networks, advanced algorithms and web development.

Volunteering

**Scouts et Guide de France**

Scout leader

September 2020 - Today

**FFSS**

First aid

Jan 2022 - Today
